

Sponsorship

A fundamental objective of this conference is to strengthen bridges between the Indian Ayurveda & Yoga community and its global counterparts. Not only is it important for young Indian Ayurveda and Yoga students to interact with, learn from and be inspired by globally renowned scholars, physicians and practitioners, it is of equal importance that international students and practitioners are able to experience the context in which authentic Ayurveda and Yoga are practiced in India. This conference aims to provide the opportunity to delve deeper into the respective practices, as well as exchange ideas, views and aspirations.

All of our revered presenters are highly committed to this objective, and are generously donating their time, expertise and invaluable insight to further this aim. Despite the incalculable value of their contribution, our estimates still suggest that the conference will cost many thousands of rupees for each individual to experience the wisdom of these incomparable presenters. And yet, we are aware that the average Indian student of Ayurveda or Yoga can only afford a few hundred rupees towards their registration fees, by the time they pay for their transportation from different parts of India and their accommodation in Rishikesh.

We consider it of utmost importance to Ayurveda that Indian students are able to participate and partake of the wisdom, experience and expertise of this conference. We are thus subsidizing the cost of attendance for them. For this we require the support and sponsorship of individuals, corporations, trusts, charities and those of us who also believe in this objective. We therefore request your patronage as a Co-Promoter of this conference, or to choose one of our Special or Specific Sponsorship packages.

About this Conference: Punarnava Ayurveda Trust, the promoter, was established with the objective of "*authentic Ayurveda for universal well being*", details at www.punarnava.com. Punarnava Ayurveda has treated over 20,000 patients globally. Conferences on Ayurveda promoted by Punarnava are acknowledged as the premier knowledge disseminating conferences. Ayurveda Conferences in 2006 and 2008 each had 600-650 registrants. The vast majority of the expected 700+ delegates for the 2011 conference will be embarking on their career in Ayurveda & Yoga, and are therefore very impressionable. Vendors of Ayurveda or Yoga goods, services or knowledge will have the invaluable opportunity to nurture and nourish these young individuals and bring their product history, current offerings and future plans to their attention and understanding, to build a lifetime of association.
